## DIVESTMENTS OF ALPHA SHINONOME AND RISE GOFUKU

---

The Board of Directors of Japan Residential Assets Manager Limited, the manager (“**Manager**”) of Saizen Real Estate Investment Trust (“**Saizen REIT**”), wishes to announce the divestments of Alpha Shinonome and Rise Gofuku (each a “**Current Divestment**” or collectively, the “**Current Divestments**”) from the property portfolio of Yugen Kaisha (“**YK**”) Shintoku.

### **Background**

#### *Alpha Shinonome*

YK Shintoku has, on 31 May 2011, entered into a sale and purchase agreement for the divestment of Alpha Shinonome (“**ASN**”) to an independent private investor (the “**ASN Buyer**”) for a cash consideration of JPY 74,402,500 (S\$1.1 million<sup>1</sup>) (the “**ASN Sale Price**”). The divestment of ASN was completed on the same day upon the payment of the full amount of the ASN Sale Price by the ASN Buyer.

ASN, located in Hiroshima, was built in December 1984 and comprises 27 residential units. It contributed about 0.2% (or approximately JPY 9.5 million) of Saizen REIT’s annual revenue in the financial year ended 30 June 2010 (“**FY2010**”).

#### *Rise Gofuku*

YK Shintoku has, on 31 May 2011, entered into a sale and purchase agreement for the divestment of Rise Gofuku (“**RG**”) to an independent private investor (the “**RG Buyer**”) for a cash consideration of JPY 234,780,942 (S\$3.6 million) (the “**RG Sale Price**”). The divestment of RG was completed on the same day upon the payment of the full amount of the RG Sale Price by the RG Buyer.

RG, located in Kumamoto, was built in April 2006 and comprises 34 residential units, 1 commercial unit and 2 car parking units. It contributed about 0.6% (or approximately JPY 26.3 million) of Saizen REIT’s annual revenue in the FY2010.

Given the small sizes of ASN and RG relative to the entire portfolio of Saizen REIT, the Current Divestments are not expected to have any material impact on the financial position of Saizen REIT.

---

<sup>1</sup> Based on an exchange rate of S\$1.00 to JPY 65.5 as at 30 May 2011, which is applied throughout this announcement unless stated otherwise.

## Consideration

The AST Sale Price and KN Sale Price, amounting to an aggregate of JPY 309,183,442 (S\$4.7 million), were fully paid up by their respective buyers on 31 May 2011.

The ASN Sale Price and RG Sale Price were arrived at on an arm's length basis, taking into account, inter alia, their respective valuations (as defined below) and the prevailing market conditions.

## Property value and financial results

Based on a desktop valuation of ASN prepared by Success Solution Inc., an independent valuer commissioned by the Manager, ASN was valued at JPY 80.6 million (S\$1.2 million) (the "**ASN Valuation**") as at 1 March 2011. The ASN Sale Price therefore represents a discount of approximately 7.7% to the ASN Valuation.

Based on a desktop valuation of RG prepared by Le Futur Corporation, an independent valuer commissioned by the Manager, RG was valued at JPY 248.0 million (S\$3.8 million) (the "**RG Valuation**") as at 31 January 2011. The RG Sale Price therefore represents a discount of approximately 5.3% to the RG Valuation.

In the past 12 months preceding the Current Divestments, YK Shintoku and 2 other TK operators of Saizen REIT, YK Shingen and YK Keizan, had completed the divestment of 27 properties and had also signed the conditional sale and purchase agreement for the divestment of Alte Heim Orio (collectively, the "**FY2011 Divestments**") (see table below):

A summary of the net book value, sale price and resultant loss on disposal in respect of the Current Divestments and the FY2011 Divestments is as follows:

	ASN	RG	FY2011 Divestments
Net book value <sup>2</sup>	JPY 80.6 mil (S\$1.2 mil)	JPY 248.0 mil (S\$3.8 mil)	JPY5,072.4 mil (S\$77.4 mil)
Sale price	JPY 74.4 mil (S\$1.1 mil)	JPY 234.8 mil (S\$3.6 mil)	JPY 4,894.5mil (S\$74.7 mil)
Excess/(deficit) of sale price over the book value	(JPY 6.2 mil) ((S\$0.1 mil))	(JPY 13.2 mil) ((S\$0.2 mil))	(JPY 201.9 mil) ((S\$3.1 mil))
Profit/(loss) on disposal <sup>3</sup>	(JPY 10.4 mil) ((S\$0.2 mil))	(JPY 29.0 mil) ((S\$0.4 mil))	(JPY 479.1 mil) ((S\$7.3 mil))

The net profit/(loss) attributable to the properties in respect of the Current Divestments and the FY2011 Divestments in FY2010 is as follows:

	ASN	RG	FY2011 Divestments
Net profit/(loss) attributable to property <sup>4</sup>	(JPY 7.0 mil) ((S\$0.1 mil))	(JPY 1.9 mil) ((S\$0.03 mil))	(JPY 138.7 mil) ((S\$2.1 mil))

<sup>2</sup> The net book value of the Current Divestments and the FY2011 Divestments are equal to the latest desktop valuation or full valuation conducted on the applicable properties. These valuations are conducted by independent valuers commissioned by the Manager.

<sup>3</sup> The differences between the profit/(loss) on disposal and the excess/(deficit) of sale price over book value are due to transaction costs, namely agent fees and consumption taxes.

<sup>4</sup> This represents the impact attributable to the properties to the net loss of Saizen REIT and its subsidiaries (the "Saizen REIT Group") in FY2010. The net loss attributable to the FY2011 Divestments in FY2010 was mainly due to net write-downs in property values amounting to an aggregate of JPY 269.1 million in FY2010. The net profit attributable to the Current Divestments in FY2010 had included write-downs in property value of JPY 9.3 million for ASN and JPY 8.0 million for RG.

## Financial effects

### Net asset value per Unit attributable to Unitholders (“NAV per Unit”)

Based on the audited financial statements of the Saizen REIT Group for FY2010 and assuming that the Current Divestments and the FY2011 Divestments had been completed on 30 June 2010, the estimated aggregate pro forma financial effects which the Current Divestments and the FY2011 Divestments would have on the NAV per Unit as at 30 June 2010 are as follows:

	<b>Audited (as at 30 June 2010)</b>	<b>Pro forma financial effects of the Current Divestments and the FY2011 Divestments</b>
Net asset value attributable to Unitholders (JPY' 000)	23,882,923	23,380,397
Number of Units <sup>5</sup> ('000)	953,203	953,203
NAV per Unit <sup>6</sup> (JPY)	25.06	24.53
(S\$)	0.40 <sup>7</sup>	0.37

### Earnings per Unit (“EPU”)

Assuming the Current Divestments and the FY2011 Divestments had been completed on 1 July 2009 and based on the audited financial statements of the Saizen REIT Group for FY2010, the estimated aggregate pro forma financial effects which the Current Divestments and the FY2011 Divestments would have on the EPU of FY2010 are as follows:

	<b>Audited (FY2010)</b>	<b>Pro forma financial effects of the Current Divestments and the FY2011 Divestments</b>
Loss for the year attributable to Unitholders (JPY' 000)	(883,878)	(1,221,759)
Weighted average number of Units <sup>8</sup> ('000)	952,710	952,710
Basic EPU <sup>6</sup> (JPY)	(0.93)	(1.28)
(cents)	(1.43) <sup>9</sup>	(1.95)

## Rationale

On 6 April 2011, the Manager announced a schedule for the full repayment of the loan of YK Shintoku (the “**YK Shintoku Loan**”) by the end of May 2011 (the “**Repayment Plan**”). The Current Divestments were conducted as part of the Repayment Plan and their sale proceeds were applied towards the repayment of the YK Shintoku Loan.

The YK Shintoku Loan was fully repaid on 31 May 2011.

<sup>5</sup> Based on 953,203,055 Units in issue as at 30 June 2010.

<sup>6</sup> It is assumed that there is no exercise of warrants and therefore, there is no dilutive effect on the NAV per Unit and EPU.

<sup>7</sup> Based on an exchange rate of S\$1.00 to JPY 63.4 as at 30 June 2010.

<sup>8</sup> Based on a weighted average number of Units of 952,710,118 Units.

<sup>9</sup> Based on an average exchange rate of S\$1.00 to JPY 65.1 between 1 July 2009 and 30 June 2010.

### **Interest of Directors and Controlling Unitholders**

A divestment fee of 0.3% of the ASN Sale Price and RG Sale Price as well as each of the FY2011 Divestments as previously announced (collectively, the “**Divestment Fees**”) is payable to the Manager. The Divestment Fees will be payable in the form of cash or units or a combination of both (as the Manager may in its sole discretion determine).

Save for the above Divestment Fees, none of the Directors or controlling shareholders of the Manager, or the Manager, the Trustee or controlling unitholder of Saizen REIT, as the case may be, has any interest, direct or indirect, in the Current Divestments.

### **Relative Figures Computed pursuant to Rule 1006 of the Listing Manual**

The relative figures for the Current Divestments and the FY2011 Divestments taken in aggregate and computed on the bases pursuant to Rule 1006(a) to 1006(d) of the SGX-ST Listing Manual (based on the latest announced audited financial statements of the Saizen REIT Group for FY2010) are as follows:

Rule 1006(a)	Net asset value of the assets to be disposed of, compared with the group’s net asset value.	22.76% <sup>10</sup>
Rule 1006(b)	The net profits attributable to the assets disposed of, compared with the group’s net profits.	13.92% <sup>11</sup>
Rule 1006(c)	The aggregate value of the consideration received, compared with the issuer’s market capitalisation based on the total number of issued shares excluding treasury shares.	46.22% <sup>12</sup>
Rule 1006(d)	The number of equity securities issued by the issuer as consideration for an acquisition, compared with the number of equity securities previously in issue.	Not applicable

The aggregate figures of the Current Divestments and the FY2011 Divestments under Rules 1006(a), (b) and (c) exceed 5%, but not 50%. Accordingly, the Current Divestments and the FY2011 Divestments, in aggregate, constitute a discloseable transaction as defined in Chapter 10 of the SGX-ST Listing Manual.

<sup>10</sup> The net asset value of the Saizen REIT Group as at 30 June 2010 was JPY 23,891.3 million.

<sup>11</sup> Based on the aggregate net property income of the Current Divestments and the FY2011 Divestments in FY2010 of approximately JPY 387.2 million and Saizen REIT Group’s net property income of JPY 2,782.6 million in FY2010. A comparison of net loss for FY2010 (contributed mainly by the write-down in the value of the property portfolio of Saizen REIT) is not meaningful.

<sup>12</sup> Saizen REIT’s market capitalisation is computed based on the weighted average Unit price of S\$0.1454 and 1,182,100,611 Units in issue on 30 May 2011, being the market day immediately preceding the date of the sale and purchase agreement.

### **Documents for inspection**

Copies of the sale and purchase agreements and valuation reports in respect of the Current Divestments are available for inspection during normal business hours at the registered office of the Manager at 3 Anson Road, #34-01 Springleaf Tower, Singapore 079909 for three months commencing from the date of this announcement.
