Disclaimer

- The value of units (the “**Units**”) in Saizen Real Estate Investment Trust (“**Saizen REIT**”) and the income derived from them, if any, may fall or rise. Units are not obligations of, deposits in, or guaranteed by, Japan Residential Assets Manager Limited as manager of Saizen REIT (the “**Manager**”), or any of its affiliates. An investment in Units is subject to investment risks, including the possible loss of the principal amount invested. The past performance of Saizen REIT is not necessarily indicative of the future performance of Saizen REIT.
- This presentation may contain forward-looking statements that involve risks and uncertainties. Actual future performance, outcomes and results may differ materially from those expressed in forward-looking statements as a result of a number of risks, uncertainties and assumptions. Representative examples of these factors include (without limitation) general industry and economic conditions, interest rate trends, cost of capital and capital availability, competition from similar developments, shifts in expected levels of property rental income, changes in operating expenses, property expenses and governmental and public policy changes and the continued availability of financing in the amounts and the terms necessary to support future business. Prospective investors and unitholders of Saizen REIT (the “**Unitholders**”) are cautioned not to place undue reliance on these forward-looking statements, which are based on the current view of the Manager on future events.
- Investors should note that they have no right to request the Manager to redeem their Units while the Units are listed. It is intended that Unitholders may only deal in their Units through trading on the Singapore Exchange Securities Trading Limited (“**SGX-ST**”). Listing the Units on the SGX-ST does not guarantee a liquid market for the Units.

Financial Performance

- Distributable income generated in FY2009, FY2010 and FY2011 were affected by cash deployed for loan repayments
- Distributable income generated in FY2010 and FY2011 were also affected by property sales and the default interest paid on the loan of YK Shintoku

Distributions

- DPU of 0.50 cents paid for 2H FY2011 (January 2011 to June 2011)
 - Cumulative DPU in FY2011 of 1.02 cents
 - Annual yield of 6.9% (based on unit price of S\$0.147)
- YTD distributable income from operations:
 - JPY 402.0 million as at 30 June 2011
 - JPY 383.9 million as at 31 December 2010
 - JPY 176.1 million as at 30 June 2010

Distributions

- DPU for 1H FY2012 may be affected by several factors, including:
 - Contributions from YK Shintoku (previously used for interest payments and loan repayment)
 - Amortisation and interest expenses relating to new financing, if any
 - Dilutive effects from conversion of warrants

YK Shintoku

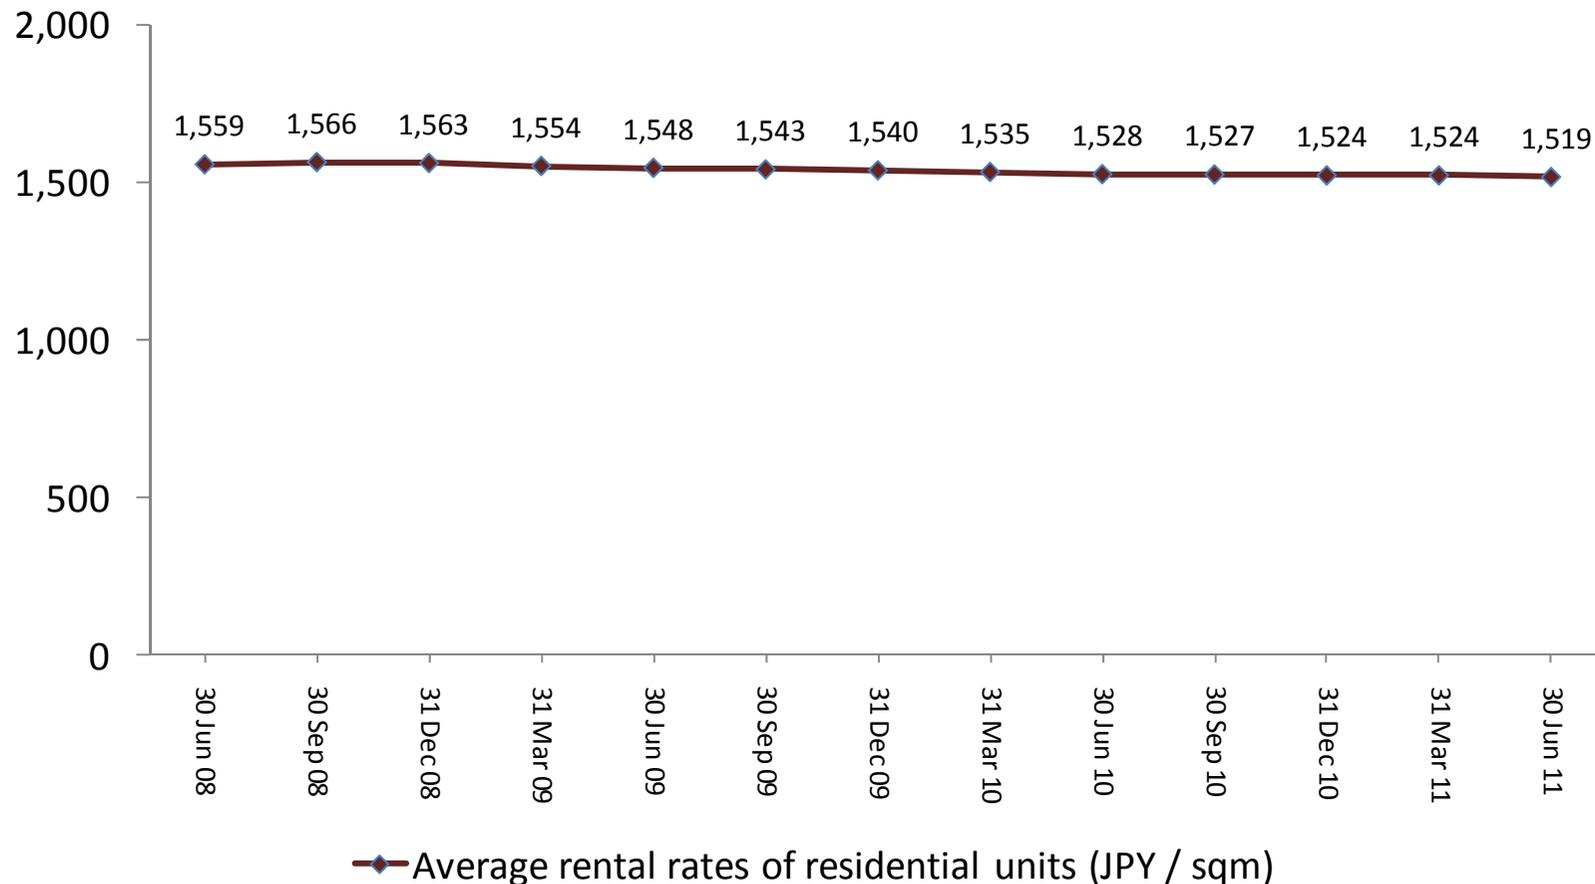

- The loan of YK Shintoku was fully repaid on 31 May 2011
- Repayment of defaulted loan in full
 - Burden of default interest charges lifted
 - Sale of 31 properties in FY2011 (from 3 TK operators) to fund loan repayment
 - YK Shintoku's cash flow available for distributions
- Full impact on contributions from YK Shintoku will be seen from the first quarter of the next financial year (July 2011 to September 2011), and this will in turn have a corresponding effect on the distributions to be declared for the first half of the next financial year (July 2011 to December 2011)

Property Operations

- Property operations remain stable
- Average tenant turnover at 21% in FY2011 vs 20% in FY2010
- Overall rental reversion of new contracts entered into in FY2011 was marginally lower by about 4.1% (FY2010: lower by about 4.3%) from previous contracted rates
- Occupancy rate remained stable above 90% since FY2008

Stable Rental Rates

- Average rental rates maintained above JPY 1,500 / sqm (approx. S\$23 / sqm) since Jun 08

Note: For consistency, rental rates across selected timeline are based on a same population of 130 properties.

11 March 2011 Earthquake

- 28 properties in affected cities of Sendai, Morioka and Koriyama in the north-eastern region of Japan
- Only minor damage
- Overall occupancy rates remain stable
- Repair expenses expected to amount to no more than JPY 120 million
 - About JPY 78 million spent in FY2011
 - Repairs expected to be substantially completed by end of the year
- No properties within the current nuclear evacuation zone; closest properties more than 50 km away

Upcoming Plans

- Gear up using unencumbered properties
 - Look to increase gearing from 24% to about 35%
 - Borrow to offset against deleveraging effect of loan amortisation
 - current distributable cashflow applied towards loan amortisation amounts to about 0.46 cents per annum¹
 - distribution payout can be significantly improved if such amortisation can be offset by new borrowings

Note:

1. *Solely for illustration only and based on loan amortisation payments in FY2011. This is not a forecast of future distribution payments or amortisation payments or new borrowings. There is no assurance that new borrowings, if any, can or will be used to offset loan amortisation payments.*

Upcoming Plans

- Explore acquisition opportunities
 - Improve portfolio mix with Tokyo properties
 - Trade and re-balance portfolio to enhance quality and yield

- Asset enhancement activities
 - Conduct renovations, especially to older properties, with the aim of improving rental and occupancy rates

- Enhance unitholder value
 - Explore other means to enhance unitholder value, such as assessing the viability of a unit buy-back program
